Half the Weight.***

SNUG TOP
THE PERFECT FIT

SNUGPRO XL TOPPER

The new SnugPro XL Commercial Topper by SNUGTOP is designed to maximize the use of work trucks. It features the strength of much heavier steel and aluminum toppers, but due to its weight saving fiberglass construction, the truck's maximum load carrying capability is left for hauling tools and equipment. Plus, the dramatically reduced weight of the SnugPro XL helps deliver improved fuel economy resulting in a smaller carbon footprint.

To provide maximum protection from the elements, the recessed doors fit perfectly and feature automotive grade seals.

Support for dual ladder racks is built into the roof construction featuring 500 pound capacity.

Overall topper weight is approx. 300 lbs.
(without shelving or other options)

DuPont ChromaPremier paint to match color and gloss of vehicle at no extra charge

Three-point locking on rear doors for added security

Oversized side doors feature heavy-duty locks with SNUGTOP's exclusive three point locking system and stainless steel hardware.

Storage and shelving options are designed to adapt to your specific needs.

No-drill installation allows easy transfer to another vehicle.

Automotive grade double seal between topper and truck bed

Interior release on rear doors

Interior hardware plated to withstand 120 hour salt spray test

Full length heavy duty stainless steel hinges on rear doors

Stainless steel door handles

Impact resistant cover over rear door mechanism

Large T-handles for ease of operation in all weather conditions (even with gloves)

Door handles can be field programmed to the host vehicle key so only one key is needed, or the door handles can display a RED pop-out indicator showing that door is locked/unlocked

Applications:

SnugPro XL Commercial Topper will fit current model year Ford F150, Chevy Silverado, Dodge Ram long beds.

Dimensions:

Height: 28" above bed rail
Length: 101"
Width: 73"

Side door opening : 79.5" wide
22" high

Rear door opening: 49" wide
44" high

Built by SNUGTOP,
the leader in pickup lids and caps.
